Depleted Ore Mines Viewed as Arsenal

Deep Tunnels Safe From Bombs In Atomic War.

JOPLIN, MO.—With the lead and zinc ore reserves badly depleted by all-out production in World War II, this vast mining field in the corners of Missouri, Kansas and Oklahoma thinks in terms of becoming a huge, subterranean arsenal when hearing talk about an atomic war.

The district has miles and miles of man-made underground caverns suitable for munitions works and storage. This, coupled with the fact that the district is near the center of the United States, makes atomic warfare conversation perhaps less frightening than almost any place else in the country.

The idea that the district could be used for defense production and storage has been stimulated by recent visits of military procurement men who have talked with manufacturers and business men on this subject.

Tunnels—"drifts," the miners call them—large enough to accommodate whole munition works are available. Many are scientifically ventilated and electrically lighted. Pumps can keep them dry. They are reached by perpendicular mine shafts. They exist at depths ranging from 50 to 300 feet.

Scores of mines, already 30 to 40 years old, worked at top speed on thin ore percentages during the recent war and under the stimulation of federal subsidies.

In July, 1947, the subsidies were withdrawn. Many of the big marginal mines closed. Others are preparing to close. About 50 per cent of the field now is idle, but the underground of the entire region is literally cut to pieces by mine drifts.

A problem of preserving the field for future subterranean development would be keeping the drifts from filling up with water should mine operations be suspended completely. Once the underground became water filled, the cost of "dewatering" would be terrific.

Tests Show Male Drivers 'Far Better' Than Women

PHILADELPHIA. — Franklin institute tested the driving ability and judgment of 3,002 motorists and drew a conclusion—men are better drivers than women.

The institute reported about 750 of those who took the tests failed to make a passing score.

The scores of men showed "far better" than those turned in by women and "the youngsters made the worst showing," the institute said.

Buyers' Strike Hitting Canadian Food Markets

OTTAWA, CANADA.—Fresh vegetables virtually have disappeared from Canadian markets and the high prices of the few still available, together with the leaping costs of other foods, are bringing protests to the government.

The Ottawa Consumers association asked Prime Minister W. L. Mackenzie King for an immediate plebiscite on restoration of price controls. Mrs. Joan Frazer, secretary, said an unofficial buyers' strike is in progress.

Prices took a sharp jump upward after Canada's conclusion of new food contracts with the United Kingdom at substantially higher prices for export beef, bacon, cheese and eggs. The scarcity of fresh vegetables, once imported from the United States, gave food costs an added boost.

Ekes Out Meager Livelihood To Preserve $20,000 Cache

WICHITA, KAN.—Police investigating the plight of a woman who had eked out a meager livelihood by laundering the clothing of other residents of a third-rate hotel found some $20,000 among her belongings.

The hotel manager had appealed for aid for his guest, reporting that she apparently had barely enough to eat.

The woman, Mrs. Joyce Leed, told police "I've been living this way because I'm afraid I would be killed if some people knew I had this much money and bonds."

Bank's Burglar Alarm Cries Wolf Too Often; Police Moan

HOLLISTER, CALIF. — The burglar alarm at the local Bank of America branch has gone off so many times lately — because of short circuits — that Hollister's police mention it in the same breath with the old "cry wolf" fable.

Last any itinerant safe-blowers get the wrong idea, Chief of Police Roy McPhail has told his policemen publicly that they're still to head for the bank on the double when the alarm sounds, even if it's just to call bank officials to "turn the thing off."

Britain Places Six Months Ban on Building Factories

LONDON. — The government has announced a six-month ban on factory building as part of a program to divert men and materials into industries making dollar-fetching exports. Airport and road construction will be reduced drastically.

Arts, Mechanics Lure Most G.I.s

Average Veteran Student Is 26; Was Former Army Enlisted Man.

WASHINGTON. — The average veteran in training under the G.I. bill of rights is just past 26 years old. He was an enlisted man in the army, had previously completed 3.7 years of high school, and is entitled to 39 months' training under the bill.

This was shown by a recent census of G.I. students, released by Veterans' administration. The report showed that while more veterans are studying liberal arts than any other one course, the favorite occupational aim of those taking on-the-job training is that of mechanic.

Thirty-eight per cent of the students, according to the report, are married, and half of them have dependents — wives, children or parents. The census, taken on a 1 per cent sampling of all veterans who entered training before April, 1947, showed that 1,825,118 G.I.s are studying in schools of higher learning or other institutions and 619,647 are in on-the-job training. Another 1,049,681 have either finished their training or dropped out.

Few Women Students.

Not quite 2 per cent of the veterans in training under the G.I. bill are women, although women comprise 2.2 per cent of the total veteran population. And, the report showed, women account for 2.4 per cent of the trainees in schools, but only 0.4 per cent of those in job training.

Most of the G.I.s in schools are in universities or colleges—907,554 of them, according to the study. But 91,000 are in professional or technological schools, 54,700 are in teachers' colleges, and 72,200 are in junior colleges. Of those attending other schools, 61,100 are in technical institutes, 99,400 in business schools, 125,100 in elementary or secondary schools, and 413,300 in vocational or trade schools.

Engineering Ranks High.

Following liberal arts as the more popular courses among the veterans in schools are engineering, crafts and trades, business courses and business administration, flight training, agriculture and medicine. On the bottom of the popularity list is social work—only 3,377 students are studying it under the G.I. bill, according to the census. Second from the bottom is dancing.

Most popular employment objective of veterans in on-the-job training is that of mechanics and repairmen for motor vehicles and railroads, with 56,764 students. Second is the job of farm manager or foreman, and third and fourth are mechanics and repairmen in other fields, and managers and officials.

At the bottom of the list among those studying on the job is general woodworking, with airplane mechanics and morticians a close second and third.

Manuscript of Beethoven's Last Completed Work Found

BALTIMORE. — The original manuscript of what is believed to be the last completed work of Composer Ludwig von Beethoven has been unearthed at Peabody Conservatory of Music, officials of the institution said.

Searching for displays to celebrate the conservatory's 80th anniversary, the manuscript was found gathering dust amid modern books and magazines in a library. Peabody officials said they were unaware it was in their possession.

The work is a canon, a composition having "voices" or "parts" with the same melody sung in harmonious succession. The words and music are in Beethoven's handwriting.

Beethoven sent the composition to a friend along with the last movement of his B-flat quartet.

N. Y. Court Decision Holds Test-Tube Baby Legitimate

NEW YORK. — A supreme court justice ruled that a child born as the result of artificial insemination is legitimate.

The ruling was made by Justice Henry Clay Greenberg in deciding that the estranged husband of Mrs. Julie Strnad, 31, had a right to visit her daughter, four-year-old Antoinette, who she said was a product of artificial insemination.

Mrs. Strnad claimed that her husband, Antoine, 42, was sterile since birth, an allegation he denied. She sought to prevent him from seeing the child on the ground Antoinette was not the offspring of her exmate. She had won a separation decree and principal custody of the child last October.

Family Living Costs Jump $450 in 22-Month Period

WASHINGTON. — The bureau of labor statistics told congress it costs an average family of four in 34 major cities about $450 more a year to maintain a "modest" standard of living now than it did 22 months ago. Almost a third of this goes for food.

The annual budget for such a family ranged from $3,504 in New Orleans to $3,458 in Washington as of last June, the bureau said, and since then consumer prices have jumped another 4.3 per cent.

Excavators Discover Hoard of Gold Coins

Buried Wealth Found at Site of New School Building.

MONTEREY, CALIF.—Hundreds of men, women and children were "prospecting" with shovels, rakes, trowels, knives, forks and even old mining tools in a gold rush that swept Monterey.

The "bonanza" is located in a 100-by-100-foot school excavation site, only two blocks from the main street of this historic California city.

It's not nuggets the "prospectors" are after, but $20 gold coins. Already more than 125 of the coins have been dug up by the treasure-seekers. Their nominal value is more than $2,500, but they are worth considerably more because the coins are collectors' items.

One of the $20 pieces, dated 1895, has a catalog value of $60. Most of the coins thus far discovered were minted between 1890 and 1900 and nearly all are in excellent condition.

The coins were buried in the lot nearly half a century ago by Will H. Martin, wealthy Monterey property owner who died in 1913.

The modern-day gold rush began after the first coin of the cache was found by Damon Burgess, employee of a construction company excavating the site for a new music school building. The word got around town swiftly and the rush was on.

One of the first to reach the scene was a man with a bulldozer which immediately clawed 15 of the coins out of the earth.

Martin's nephew, Carmel Martin, former Monterey mayor, bought out a hardware store in order to provide digging tools for the amateur prospectors and presided over the treasure hunt.

Repentant Thief Returns Loot Taken While 'Tipsy'

CARMEL, CALIF.—Mrs. B. L. Coates was dismayed when someone burglarized her home of a camera, light meter, a jeweled elk's tooth, a fountain pen and a few items of jewelry. She was amazed a week later when all of the loot was returned in a parcel post package mailed from Los Angeles. Also enclosed was an unsigned note which said:

"I am returning your things that I picked up one night while intoxicated. This is everything I found on my person when my mind began to function properly. Please forgive me for this awful thing I have done. I swear I'll never drink again."

Judge Discounts Vet's Plea Of Stealing for New Home

PHILADELPHIA. — A navy veteran, who told the court he stole in the hope of making a separate home for his wife and 15-month-old child, was sentenced to 11½ to 23 months in county prison by Judge Thomas Bluett.

The veteran, Raymond Slovenski, 21, pleaded guilty to robbing a candy store of $53, after holding up a 16-year-old counter girl, Juanita Giffin, at pistol point.

Slovenski told the court he had found his mother's home impossible. He said he hoped to obtain enough money from the robbery to make a home for his own family.

Judge Bluett waved aside defense counsel's plea for clemency, however, and imposed sentence.

"As a navy veteran," Bluett said, "this young man should know how dangerous a weapon can be."

Railroads Improve Equipment With New Box Cars, Engines

CHICAGO.—All railroads and private carlines had 123,395 new freight cars on order on December 1, the Association of American Railroads has announced. The number on order on November 1, 1947, was 126,213.

Of the total number on order December 1, Class I rails and railroad-owned private-controlled refrigerator companies had 110,882 new freight cars on order. This was the largest number on order at any time since April 1, 1923, when the total was 116,800.

New freight cars on order December 1 totaled 63,616 while on November 30 the total was 109,467.

Class I rails also had on order 1,180 locomotives. This was the most since October, 1923, when there were 1,242 locomotives on order. On December 1, 1946, the railroads had 364 on order.

Free Mail Privilege Sought For Hospitalized Veterans

WASHINGTON.—Veterans organizations are pressing congress for action on seven bills calling for free mailing privileges to former servicemen suffering in veterans' hospitals.

Destitute hospital patients and those who have income under $20 per month now are allowed a maximum of six cents in stamps per week.

They may mail two first class letters a week, provided they don't use air mail, and are given post cards if they prefer them to stamps.

Thirty per cent of the 106,483 hospitalized veterans receive no pensions or compensation at all, veterans leaders pointed out, and thousands have no outside income.

◆ CLASSIFIED SECTION ◆

LOST: One black female hound, some white; collar with L. P. Lucado initialed on it. $25.00 reward.

L. T. Lucado,
Route 3, Appomattox, Va.

Local Happenings

Mr. and Mrs. Robert W. Morris celebrated their Golden Wedding Anniversary at their home near here Sunday afternoon, between the hours of two and six when over 100 friends and relatives called.

Yellow candles and yellow flowers embellished the rooms, and the ices and cakes were in accord with the wedding note.

They were married February 22, 1898, at Vera, by the late Rev. William Fisher, of Concord.

Their eight children, who were present Sunday: Mrs. R. A. Hamilton, and J. Earl Morris, of Lynchburg; Mrs. Herman Robertson, of Lovingston; Mrs. L. F. Day, of Norfolk; Mrs. J. D. Jennings, of Cambria; Mrs. R. M. Walsh, W. D. Morris and Harold Morris, of Appomattox. They have 7 grandchildren.

Monroe Lodge 301, A. F. & A. M. held a banquet Monday night in the school cafetria. T. M. Richardson, Worshipful Master, presided. The Rev. J. M. Walker was the guest speaker.

Mr. and Mrs. J. C. Hilten, of Washington, D. C., have announced the birth of a daughter, Delores Anne, born February 19th. Mrs. Hilten's mother, Mrs. Leslie Gordon, is spending some time with them.

Mr. and Mrs. Maurice Gordon, of Danville spent last week-end in the home of his parents, Mr. and Mrs. Leslie Gordon.

Mrs. T. E. Turnes, of Lynchburg was a visitor in this same home.

Miss Virginia Bingham will attend the wedding of Miss Juanita Chandler to Mr. Samuel Gordon Davis Saturday evening, February 28, at the Main Street Methodist Church, South Boston, Va. Miss Bingham will be one of the bridesmaids.

Mrs. L. L. Gayle spent several days last week in Fredericksburg and Richmond.

Miss Virginia Bingham, of Richmond, Mrs. Cecil Bailey and son, of Danville, and Floyd Bingham, of Danville, spent last week in the home of their father, J. A. Bingham.

Mr. and Mrs. Rufus Cawthorne, who recently sold their home here have moved to Florida.

Mrs. Harold Caudle, of Richmond spent the week-end here.

Misses Jessalyn Moore and Mary Anne Wheeler motored to Danville Monday.

Mrs. P. Brent Stratton, of Concord has received a message of the arrival of her sister, Mrs. W. P. Ayers in California. She will visit her sister, Mrs. J. J. Rizek, of Burlington, Calif., who is ill, and will visit her neice, Mrs. H. B. Chipp, of San Pablo, Calif.

Atomic Danger Zone Posted For Tests on New Weapons

WASHINGTON.—The atomic energy commission has posted a "Danger—Keep Out" notice covering 39,000 square miles of the Pacific ocean surrounding Eniwetok atoll, site of forthcoming "tests of military weapons."

"Hazards will exist" in a rectangular area approximately 173 miles north and south and 226 miles east and west, the commission said.

The danger will continue throughout 1948.
